

Why there are so many uneducated and poor Black people?
Could it be because of our politicians and public school system?
Do they want an educated and an uneducated population? Their
action seems to indicate they do. As they refuse to examine a free
program that will insure that ever kid will learn to read, write and
do simple math.

Can you read this and understand what it says? (*+0 ~+- #*+0
\$+0 @+^/+*/ <//” 0\$/* =\$/~ !%*’= “/0%\$ =\$/ =/:=) If you
can’t then you now know how a Black, Hispanic or White child
feels when they are in a class and can’t read the material. That is
the position too many public school students are in. Once they get
behind in the program most of them are lost because they can
never catch up with the students who have mastered the skills.
The further they go the farther behind they get. If you want every
kid to have the basic skills they will need to be independent and
qualify for most jobs go to the website “strongoneducation.com”.
Click on Yes we can teach kids how to read and do other basic
skills. By the way the \$+0says” Now you know someone
feels when they can’t read the text.” I simply substituted symbols
for letters.
