

Folks it's time to quit calling people African-Americans, Hispanic, Asian-Americans **and just call them Americans**. Most of them have never been to Africa or Asia. We don't call people whose ancestors came from Europe European-Americans or Red head Americans, Blond-Americans. All this does is to divide us. You are an American or you aren't. If you think that we must call people in this country whose ancestors were Africans "African-Americans" then you will have to call all of us African-American. All of our ancestors came from Africa.
