

I wrote this several years ago. I thought it was important then but I think it is critical now. Look what is happening now and then see if there is a resemblance to Alinsky's program for creating a socialist state.

I would advise you to take a look at countries that have adopted socialism. Venezuela is a good example of what often happens to them. If socialism is your choice we are well on way to it. Tell me which of Alinsky's steps that we aren't doing. Just One Election Decides Our Fate. This is based on Alinsky's eight steps from democracy to socialist society. Obama quotes him often in his book and Hillary did her thesis on Alinsky. Now add Senator [Bernie Sanders](#)... **Almost There.** There are 8 levels of control that must be obtained before you are able to create a socialist/communist State. The first is the most important. **5 of the 8 Are Done. The Last 3 Are Almost There:** (Do you agree?)

1. Healthcare: "Control Healthcare and you control the people" **DONE!!!**
2. Poverty: Increase the Poverty level as high as possible." Poor People are easier to control and will not fight back if the government is providing everything for them to live. **DONE!!!**
3. Debt: Increase the National Debt to an unsustainable level." That way you are able to increase Taxes, and this will produce more Poverty.**DONE!!!**
4. Gun Control: Remove the ability to defend themselves from the Government. That way you are able to create a Police State - total local control. **ALMOST THERE!!!**
5. Welfare: Take control of every aspect of their lives (Food, Livestock, Housing, and Income).**DONE!!!**
6. Education: Take control of what People read & listen to; take control of what Children learn in School. **ALMOST THERE!!!**
7. Religion: Remove faith in God from the Government and Schools. **ALMOST THERE!!!**

8. Class Warfare: Divide the People into the Wealthy against the Poor. Racially divide. This will cause more discontent and it will be easier to Tax the Wealthy with full support of the voting Poor.**DONE!!!**
